SKILLS

- **Languages:** C++, Java, JavaScript, Python
- **Frameworks:** HTML5, CSS3, React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools/Platforms:** Git, GitHub, Postman, Tailwind CSS
- **Soft Skills:** Problem-solving, Team collaboration, Critical thinking, Adaptability

PROJECTS

- **LUXE – Full-Stack MERN E-Commerce Platform** | [GitHub](#) | January 2026 – March 2026
Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB
 - Engineered a scalable e-commerce application using React.js with 25+ reusable components and seamless cart and checkout workflows
 - Designed and implemented 15+ RESTful APIs using Node.js and Express.js, integrating MongoDB to manage 1000+ records with secure JWT authentication
 - Integrated Stripe payments and built an admin dashboard to manage products, inventory, and orders, improving operational efficiency by ~60%
- **Founder Forge – Professional Networking Platform** | [GitHub](#) | January 2025 – May 2025
Tech: HTML5, Tailwind CSS, JavaScript, PHP, MySQL
 - Built a responsive frontend using HTML, Tailwind CSS, and JavaScript, optimizing UI performance and reducing page load time by 35%
 - Developed a PHP-based authentication and profile-editing system, allowing users to securely register, log in, and update their professional profiles
 - Designed a modular database structure for user profiles, skills, and education to improve data efficiency and future feature scalability

TRAINING

- **Mastering C and C++ Programming — Board Infinity** | [Certificate](#) | July 2025 – August 2025
 - Completed an industry-focused training program covering core and advanced C and C++ concepts
 - Gained a strong understanding of control structures, functions, arrays, pointers, and memory management, with hands-on experience writing efficient, structured programs
 - Improved algorithmic thinking and problem-solving abilities through extensive hands-on coding tasks, applying logical reasoning to implement efficient solutions in C and C++
 - Strengthened proficiency in writing modular, efficient code and implementing basic data structures such as linked lists, stacks, and queues

CERTIFICATES

- Build Generative AI Apps and Solutions with No-Code Tools | [Certificate](#) | August 2025
- Software Engineering: Implementation and Testing | [Certificate](#) | May 2024
- The Code off Duty – A Web Hackathon | [Certificate](#) | February 2024
- Responsive Web Design – FreeCodeCamp | [Certificate](#) | September 2023

ACHIEVEMENTS

- **Python 3-star in HackerRank:** May 2024 – Present
Earned **3-star** Python badge on **HackerRank** by solving 50+ problems through consistent problem solving.

EXTRACURRICULAR ACTIVITIES

- Advanced to the second round in the Code Off Duty Web Development Hackathon for building a functional web solution and showcasing strong collaboration and coding abilities
- Completed 60 hours of social service with **Care Club Foundation**, demonstrating teamwork, responsibility, and community engagement

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.5 August 2023 - Present
- **Swami Vivekananda Junior College** Anantapur, Andhra Pradesh
Intermediate; Percentage: 93 June 2021 - March 2023
- **Zilla Parishad High School** Anantapur, Andhra Pradesh
Matriculation; Percentage: 93 June 2020 - March 2021
